

**Queens College**  
educates and provides more teachers  
for New York City schools than  
any other institution.

**Why? It's all in the numbers.**

That's the percentage of Queens College students passing  
all New York State teacher certification exams.  
It's one of the highest pass rates in the state.

That's also the number of New York State Registered programs  
our Division of Education offers leading to initial and/or professional  
certification. With over 100 undergraduate and graduate programs,  
we're one of the largest institutions of teacher preparation in the state.

**A great record of success.**  
**A great selection of programs.**

**Two** great reasons to make Queens College your number  
**one** choice when seeking teacher certification.
