Letter of Commitment

To: Professor Mark G. Miksic, Director and
   Professor June K. Miller, Co-Director
   Science Teacher Careers Program
   Queens College, City University of New York
   Flushing, New York 11367

Dear Directors:

This letter is to confirm my commitments as a participant in the Science Teacher Careers (STC) Program. I understand that I will receive individual counseling and advisement and other STC Program benefits in exchange for my commitment to teach a minimum of two years in New York City schools. This teaching commitment is to begin as soon as I have completed the B.A./B.S. or second baccalaureate degree credits in science education at Queens College and receive a provisional City or State certificate in Biology, Chemistry, Earth Science or Physics or am otherwise eligible to teach.

While I am in the STC Program, I commit myself to attend all sessions of the STC Seminar.

Upon graduation or certification, I will notify the Science Teacher Careers Program, in writing, in the first month of each semester (September, February) for at least two years, as to where I am teaching, which subjects I am teaching, or what I am doing if not teaching. I will also inform the STC office of any change in my address or telephone number.

Sincerely yours,
