

STC SCIENCE EDUCATION SEMINARS – SPRING 2005

Wednesdays: 5:00(sharp)-6:20 PM

Place: SB Room A302

Faculty Convener: Mark G. Miksic

Science Teacher Careers members attend the Science Teacher Careers Seminars, which are credit courses, while in the Program.

NEW STC Entrants: are registered into the STC Science Seminar (2 credits) and attend weekly.

Continuing STC Participants: are registered into the Science Teacher Lecture Seminar (1 credit) and attend the **ALL** sessions, which are approximately alternate weeks.

These Seminars are exclusively for the students in Science Teacher Careers Program and feature: participation and exchange of views from all participants and components designed to enrich the background of prospective teachers.

- a) Introduction to the History of Science and Human Culture
- b) Introduction to Scientific Inquiry.
- c) Special Topics in Frontiers of Science and Science Education
- d) The design and completion of science education projects to illustrate graphic and exciting ways of presenting science concepts.
