Scroll down to find iTunes U Link and check the box at the right. Then click Submit.

![iTunes U Link](image)

Success is reported; click OK.

![Content Type Availability](image)

Receipt: Success
The attempted action was successful.

2011-01-29 01:49:42 PM
Now click **Building Block Tool Availability**

Scroll down to find **iTunesU Course Application** and click on the box:

Click **Submit**

Success is reported; click **OK**

---

The last step is to activate iTunesU for your course. At the Control Panel, choose iTunesU in the Course Tools module.
You can use an iTunesU site from another one of your courses (highlight the course on the list) or click enable to create a new iTunesU site for the current course.

Choose an iTunesU site from a previous course, click Enable for the current course.

Success is reported; click **OK**.

iTunes U enabled

iTunes U has been successfully enabled for this course.

Saturday, January 29, 2011 2:27:10 PM EST

Now the iTunesU Control Panel show how many tracks and their total size. Clicking on **Reveal in iTunes** will have your browser open the iTunes application (which you must have on your computer and is available at XXXXXXXX) and open your iTunesU course. Students will get to your iTunesU course by clicking on the link you set up next.
Adding an iTunesU Link to your course.
Now you can go to any content area of your choice to create the actual iTunesU link for your course. Choose any content area, create your own Content Area (see the tutorial on Customizing Your Course Menu at www.qc.cuny.edu/edtech) and choose any folder. For this example, we chose Course Documents.

**Content Areas**
- Course Information
- Assignments
- Course Documents
- External Links

Select iTunes U Link from the pull down and click Go

Fill in a name for the link and any instructions. Click **Submit**

**Create iTunes U Link**

1. **iTunesU Link Information**
   - Name: Click here to go to the iTunesU course site.

2. **Options**
   - Active: **Yes**

Sample text:
You must have the iTunes application on your computer. It is available at http://www.apple.com/itunes/
Click **OK**

You are back at the Content Area that contains the new iTunesU link. You can create as many links as you want, but they will all take you to the same course on iTunes.

**Course Documents**

Click here to go to the iTunesU course site.

You must have the iTunes application on your computer. It is available at [http://www.apple.com/tunes/](http://www.apple.com/tunes/)

Click on the link and the iTunes application should open:
