

**19th Annual CUNY Conference on Human Sentence Processing
Program for Thursday, March 23**

**Paper Sessions, 9:15–6:00
Poster Session, 6:00–8:00**

**Proshansky Auditorium
Concourse Level Lobby**

From 8:15	Registration & Coffee/Breakfast
9:15	Welcoming Remarks
9:30	Julie Franck (University of Geneva), Saveria Colonna (University of Paris 8), Ulrich H. Frauenfelder (University of Geneva) & Luigi Rizzi ((University of Sienna & University of Geneva) ▪ Syntactic principles in agreement production and comprehension
10:00	Nicola Molinaro (University of Padua), Albert Kim (University of Washington) & Francesco Vespignani (University of Padua) ▪ Number agreement violation: An ERP analysis of its outcome
10:30	Anna Hatzidaki, Martin J. Pickering & Holly P. Branigan (University of Edinburgh) ▪ The construction of subject-verb agreement in sentence production by bilinguals
11:00–11:30	Coffee Break
11:30	Juhani Järvikivi (University of Turku & University of Dundee), Roger P .G. van Gompel (University of Dundee), Jukka Hyönä (University of Turku) ▪ The use of thematic role information during pronoun resolution: A visual-world eye-movement study
12:00	Peter C. Gordon, Randall Hendrick & Scott Hajek (University of North Carolina at Chapel Hill) ▪ Interpreting ambiguous pronouns: Sometimes it's easier
12:30	Hamutal Kreiner (University of Glasgow), Patrick Sturt (University of Edinburgh) & Simon Garrod (University of Glasgow) ▪ The time course of lexical vs. stereotypical gender processing in reference resolution: Evidence from eye-movement
1:00–2:30	Lunch Break
2:30	Sarah Brown-Schmidt, Christine Gunlogson, Duane Watson, Carol Faden & Michael Tanenhaus (University of Rochester) ▪ Perspective matters during on-line production and interpretation of questions and replies in unscripted conversation
3:00	Matthew E. Watson, Martin J. Pickering & Holly P. Branigan (University of Edinburgh) ▪ Investigating reference frame categorisation using dialogue methodology
3:30	Manami Sato, Amy Schafer & Benjamin Bergen (University of Hawaii at Manoa) ▪ Effects of picture perception on the expression of abstract concepts in sentence production
4:00–4:30	Coffee Break
4:30	Tomoko Ishizuka (UCLA), Kentaro Nakatani (Konan University) & Edward Gibson (MIT) ▪ Processing Japanese relative clauses in context
5:00	Chien-Jer Charles Lin & Thomas G. Bever (University of Arizona) ▪ Chinese is no exception: Universal subject preference of relative clause processing
5:30	Chun-chieh Natalie Hsu, Felicia Hurewitz (University of Delaware) & Colin Phillips (University of Maryland at College Park) ▪ Contextual and syntactic cues for head-final relative clauses in Chinese
6:00–8:00	Reception & Poster Session 1

**19th Annual CUNY Conference on Human Sentence Processing
Program for Friday, March 24**

**Paper Sessions, 9:00–6:30
Poster Session, 12:45–2:45**

**Proshansky Auditorium
Concourse Level Lobby**

From 8:15	Registration & Coffee/Breakfast
9:00	Whitney Tabor (University of Connecticut) ▪ A unified, self-organizing model of garden path phenomena, center-embedding phenomena, and interference effects
9:30	Markus Bader & Jana Häussler (University of Konstanz) ▪ On the proper place of frequency information within a model of garden-path recovery
10:00	Masako Hirotsu, Ina Bornkessel, Korinna Eckstein & Angela D. Friederici (Max Planck Institute for Human Cognitive and Brain Sciences) ▪ Thematic role revision in Japanese: An auditory ERP investigation of passive and causative constructions
10:30–11:00	Coffee Break
11:00	Invited Speaker: Daniel Büring (University of California at Los Angeles) ▪ Intonation for mind readers
11:45	Scott Jackson (University of Arizona & University of Maryland at College Park) ▪ Prosody and logical scope in English
12:15	Yukiko Koizumi, Dianne Bradley (Graduate Center, CUNY), Eva M. Fernández (Queens College & Graduate Center, CUNY) & Janet Dean Fodor (Graduate Center, CUNY) ▪ Explaining the preference for narrow-scope negation in not-because sentences
12:45–2:45	Lunch & Poster Session 2
2:45	Yuki Hirose (University of Tokyo) ▪ Missed cues: Speaker-hearer mismatch and variability
3:15	Johannes Schliesser, Sandra Pappert & Thomas Pechmann (University of Leipzig) ▪ Case and prosody interact with argument structure expectations
3:45	Katy Carlson (Morehead State College), Charles Clifton, Jr. & Lyn Frazier (University of Massachusetts at Amherst) ▪ Effects of constituent length on boundary informativeness
4:15–4:45	Coffee Break
4:45	Announcements (CUNY-2007)
5:00	Kerstin Hadelich (Saarland University) & Stefan Baumann (Köln University) ▪ Accent type and givenness in German scene descriptions: Evidence from multi-modal priming
5:30	Matthew Wagers & Colin Phillips (University of Maryland at College Park) ▪ Re-active filling
6:00	Andrea Santi & Yosef Grodzinsky (McGill University) ▪ An fMRI Study of parasitic gaps: Uncovering the subprocesses of filler-gap dependencies

**19th Annual CUNY Conference on Human Sentence Processing
Program for Saturday, March 25**

**Paper Sessions, 10:15–5:30
Poster Session, 12:00–2:00**

**Proshansky Auditorium
Concourse Level Lobby**

From 10:00	Registration
10:15	Invited Speaker: Mark Johnson (Brown University) ▪ Parsing speech corpora
11:00	T. Florian Jaeger (Stanford University) ▪ Syntactic persistence in real life (spontaneous speech)
11:30	Susanne Gahl (University of Illinois at Urbana-Champaign) ▪ Is frequency a property of phonological forms? Evidence from spontaneous speech
12:00–2:00	Lunch & Poster Session 3
2:00	Ming Xiang, Brian W. Dillon & Colin Phillips (University of Maryland) ▪ Testing the strength of the spurious licensing effect for negative polarity items
2:30	Jason Varvoutis & Martin Hackl (Pomona College) ▪ Parsing quantifiers in object position
3:00	Yi Ting Huang & Jesse Snedeker (Harvard University) ▪ On-line interpretation of scalar quantifiers: Insight into the semantic-pragmatic interface
3:30–4:00	Coffee Break
4:00	Adrian Staub & Charles Clifton, Jr. (University of Massachusetts at Amherst) ▪ Effects of a word's status as a predictable phrasal head on lexical decision and eye movements
4:30	Jesse Harris, Liina Pykkänen, Brian McElree (New York University) & Steven Frisson (University of Birmingham) ▪ Interpretation of concealed questions: MEG and eye-tracking data
5:00	Liane Wardlow Lane, Michelle Groisman & Victor S. Ferreira (University of California at San Diego) ▪ Speakers' control over leaking private information
5:30	Conference closes
