Homework, exams and grading

Homework will be assigned at every meeting of the class but will not be collected. The homework assignments will appear on the course webpage as soon as it is assigned. The homework will be discussed and questions about it will be answered in the beginning of each class. There will be three midterm exams and the final. The lowest score of the midterms will be dropped. The better two midterms will count for 60% of the grade and the final exam will be 40%. No make-up for midterms will be given for any reason. If you have to miss one it will count as the one that is dropped.
